

Dundalk Sub-Aqua Club was set up in 2001 by number of experienced local divers who joined together to pool their knowledge of local/national dive sites and diving experience achieved in other clubs north and south of the border, but who felt it was time to bring it home and set up our very own dive club. Since then the club has grown from strength to strength, taking on new people every year for training.

We are affiliated to the Irish Underwater Council(Comhairle Fo Thuinn) CFT and we currently have 40 members, the majority of which are active divers

Dundalk Sub-Aqua Club has a vast wealth of experience and qualifications amongst its members, ranging from Monitor One Star, Leading Diver, Search & Recovery Diver, Club Diver to Trainee Diver. Some of our members have been diving for up to 25 years and they contribute an enormous amount in terms of knowledge of local/national dive sites as well as experience in how to keep the club a vibrant and active one.
